# JAMM JOURNAL

INCA COMMUNITY SERVICES, INC.

## WE ARE MORE THAN JUST DRIVERS!

Murray County was able to transport senior citizens from the nursing home to a picnic in the park!!

The drivers go above and beyond to make all people feel special and welcomed on our routes and with our services.

These types of outings are very special to JAMM and we continue to work with the community to bring joy and happiness to those in need.

Making a difference one ride at a time.

### TORNADO AND ROAD SAFETY

**Get off the road.** The best options are to drive to a designated shelter, basement or safe room. The next best option is a small, windowless room or hallway on the lowest floor or a sturdy building.

**DO NOT** seek refuge in a vehicle, outside or under an overpass. A highway overpass does not provide safety from a tornado

**If the tornado is imminent** and you are forced to stay in your car, keep your seat belt on and making sure your head is covered, Stay below windows if possible.

**DO NOT** seek shelter under an overpass or tree. This put you at greater risk of being killed or seriously injured by flying debris from the powerful tornado winds.

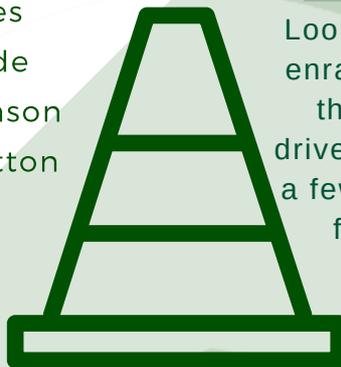

## JAMM'N Success Story

A rider who recently received custody of his two granddaughters has no vehicle and needed air conditioning units for his home and he also wanted a pool to put in the yard for the girls but had no vehicle to get to the local Wal-Mart to pick these items up. He was more than welcomed on the bus by the driver who encouraged him to get whatever he needed. He purchased five air conditioning units and a swimming pool and loaded it all on the bus. He was very thankful to the driver and the services.

### BIRTHDAYS

### PROTECT YOURSELF IN ROAD RAGE SITUATIONS

Look straight ahead, don't engage with an enraged driver. Roll up your windows:lock the doors. Pull over and let the enraged driver pass. Instead of shouting back, take a few deep breathes and count backwards from 20. If an angry driver follows you, don't get out of your vehicle. Go to a public space. Refrain from using the horn.

### LIFT MAINTENANCE IMPORTANCE

Run lift through a cycle daily before starting shift. Lifts should be lubed monthly and noted on pre-trips.
