

DECEMBER 2019

JAMM JOURNAL

INCA COMMUNITY SERVICES, INC.

A look back at our celebration!

Making a difference one ride at a time.

DISABILITIES IN AMERICA

1 million people live with severe disabilities, 2 million people have a functional limitation, and 5 million people with a disability are youth.

The ACS data (2012-2016) shows that about 15.34% of the overall state's population is disabled which is higher than the national average of 12.8%. The counties in Oklahoma averages range from 9% to 31%. Counties with significant high portion of population with disabilities include Marshall, Pushmataha, Johnston, Sequoyah, and McIntosh.

15.6% of Oklahomans – almost one in six - have disabilities. 189,396 Oklahomans (all ages) have hearing difficulties. 128,037 Oklahomans (all ages) have vision difficulties. 208,732 Oklahomans (age 5 and up) have cognitive difficulties.

The Office of Mobility and Public Transit was signed into law in May 2019 in hopes to make transportation easier for people with disabilities. The Governor directed ODOT to work to increase mobility for all.

20 Years of Service!!

This month we completed the celebration for JAMM Transit's 20 years of service. As a recap JAMM Transit has provided over 2 million passenger trips, 10 million revenue miles, and has operated for over 1 million hours. JAMM Transit continues to work to improve routes and services. Expansion and growth are a need within the area and JAMM will continue working diligently to bring additional services to the area.

BE MINDFUL OF OTHERS

Considering our closest relationships, as well as our acquaintances and others who we don't see regularly, it is important to be mindful of how we treat others because of the impact it can have. Truly being considerate can go a long way with many friendships and relationships.

MONTHLY REMINDER

All children must wear a seat belt when they are riding on the bus. Remember safety practices when transporting children.
