Staff:
We have had several requests for instructions on how to download the EWS system on your phone. Unfortunately there is not an app, but you are able to save the website on the home screen that will allow for easier access. Below is some information on how to accomplish this task.

For Android Phones:

On your phone open Google, Internet Explorer, or Safari.

Type in **ews.incacaa.org** in the search engine bar.

Once the EWS website pulls up click on the three little dots in the top right corner.

A drop down box will appear.

Click add to home screen.

A popup will come up with Add to Home Screen, click Add.

Then click add again.

For Apple Phones:

On your phone open Google, Internet Explorer, or Safari.

Type in **ews.incacaa.org** in the search engine bar.

Click on the share icon (it looks like a box with an arrow pointing up)

Scroll up until you find add to homescreen

Click add to homescreen

Click add

We have included instructions for Android and I-phones. If you have trouble please call Erica Pogue at 580-889-5193 extension 210 and she can try to walk you through how to save the site on your home screen for easier access during this time period.
