20 Years of Service!!

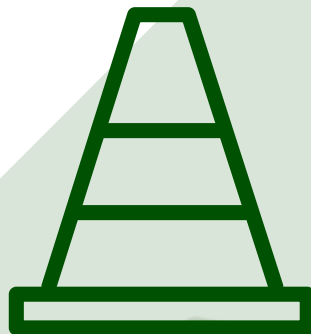

In celebration of our last month of the celebration Individuals with Disabilities will ride Town Route Services for free.

According to data from the Bureau of Transportation Statistics, an estimated 25.5 million Americans have disabilities that make traveling outside the home difficult.

Ensuring public transit is available and easily accessible to those with disabilities is a priority in any transportation system. We are using December as our month to give back to those who have difficulties and showing them how much we care.

SMILE!!

Simply smiling can be one of the best ways to make a good impression on anyone. If you enter a situation without one, it could put a negative impression on a potentially difficult situation. And smiling just makes you feel happier and releases bad emotions.

MONTHLY REMINDER
